RESTRICTION/ELECTION

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

1. Group I includes claims 1-5, drawn to a liquid containing bag, classified in Class 347, subclass 86.

2. Group II includes claims 6-15, drawn to a sealing apparatus and a method for sealing, classified to class 277, subclass 590.

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions. The invention I relates to the liquid containing bag while the invention II relates to the sealing apparatus.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).
